

Recycling and disposal information about Sustainability give-away items 2019:

	Overall sustainability	Recyclability			
		Glass	Silicon parts	Plastic lid	
Keep cup	<p>Designed for long and repeated use and to replace hundreds of paper/plastic takeaway coffee cups</p> <p>“lids, plugs, silicone bands and cup components are durable, and designed to be easy to care for. All are dishwasher safe on the top shelf.”</p> <p>“KeepCup components are detachable and replaceable. Ordering replacement parts from KeepCup – lids, bands – is much more energy efficient and less wasteful than buying a whole new KeepCup.”</p>	<p>NO</p> <p>The glass is tempered, so the annealed surface makes it unfit for recycling.</p>	<p>NO</p> <p>Currently in Australia silicone goes into general waste, as it is not commercially viable to recycle</p>	<p>Maybe</p> <p>Check locally</p>	<p>https://au.keepcup.com/</p> 
Water bottle	<p>Designed for long and repeated use and to replace hundreds of single use plastic water bottles</p> <p>Not designed for HOT beverages!</p> <p>Dishwasher safe</p>	<p>YES</p> <p>Glass is soda glass – same as a normal glass beverage bottle and can be recycled</p>	<p>NO</p> <p>Currently in Australia silicone goes into general waste, as it is not commercially viable to recycle</p>	<p>NO</p> <p>Unknown plastic – category 7</p>
